Excavation, backfill, and drainage/crushed stone for retaining walls, building addition, ramps and flat work *Building addition concrete not included See concrete for retaining wall and main entry area steps allowance below(awaiting final pricing/design)	
Prep and pour concrete at loading docks and ramps, sidewalks, and curbing	$88,600
Site drainage as per plans, including all piping, structures, modifications to existing and excavation/grading at existing stormwater ponds	$211,000

Asphalt paving as per plans includes striping	$316,000
General conditions/insurance/admin/supervision	$110,000
Total:	$1,986,600
Add Allowances:	
Retaining walls/steps	TBD
Landscaping or planters/maintenance of same	TBD
Fencing/guiderails/metal steps	TBD
Temporary power or gas	By Others

*TBD Items forthcoming – expect by 10/24/25

NOTES ▪ EXCLUSIONS ▪ CLARIFICATIONS ▪ CONDITIONS ▪ ACCEPTANCE ▪ UNIT PRICING

- No other work other than what is stipulated above is included in this proposal
- Permits, testing, asbuilts and survey/stakeouts by others
- Bond fees if required shall be added to the contract cost/no retainages
- ASDC is not responsible for erosion, maintenance, damages due to unusual storms or acts of God beyond our control
- ASDC is not responsible for possible damage to pavements or paths required for our trucks and equipment to access the sitework
- ASDC will not be responsible for any persons other than ASDC employees entering ASDC work area during the term of our work for injury or claims.
- No additional erosion controls included or tree protection unless specified
- No hazardous or contaminated material removals/no tank removals
- We are not responsible for any unmarked underground utilities or services/private mark-out if required by others
- On all capital improvement work – Form must be signed by customer and returned to us or sales tax will be billed additionally to all invoices.
- Materials Price Increase: When the price for any item of materials to be used on the Project increases two percent (2%) or more between Contract signing and materials purchase, Customer shall pay to Contractor, on request, all sums by which the cost to Contractor for any materials item has increased beyond 2%, as demonstrated by Contractor. This includes but is not limited to price increases in lumber, plywood, steel, drainage products, concrete, asphalt, fuel, manufactured products, and equipment.
- Agreements are bid using non-union rates – non prevailing wage
- If job duration extends beyond the anticipated timeframe, no liquidated damages are to be imposed on ASDC.
- All pricing assumes our work can be performed in a continuous manner without delays, stoppages or interruptions by others or reasons beyond our control. If delays for our agreement or crews occur, additional charges will be assessed and not unreasonably withheld. Concrete or iron work may be delayed in winter conditions.
- No shoring or bracing included
- Excavation contract limits to bottom of footing as proposed only. Unsuitable areas requiring additional excavation and re-filling shall be an additional charge if applicable
- No frost protection for exposed earth or footings
- No de-watering included – rate: one-man crew with pump $480.00 per day
- No structural fill or replacement fill included unless stated above

- No imported topsoil included unless stated above

- No concrete work or masonry work unless specified
- No planting, seeding or landscape work unless stipulated
- We are not responsible for water conditions under asphalt or grades under 1.5% on paving.
- Paving price subject to change based on increased purchase price at plant
- Exterior only footing drains included if required
- Footings requiring underpinning to be by others if applicable
- Leader drainage system with PVC uprights or add for custom upright
- No excavation for mechanicals under slabs additional **$40** per LF up to 24" depth – Site trenching add allowance (**$30** LF)
- Tank installation not included unless stated
- No flushing of culverts
- No tapping of water or gas
- No signage unless stipulated
- No screening of stripped topsoil is included
- No installation for conduits or utility lines unless stipulated
- No rock blasting or hammering, if applicable
- Minimum drill and blasting depth 6'
- We will not be responsible for repair, over breakage or discontinuities in the existing rock due to unknown, underground seams, decay, hardness of rock or water conditions in the proposed blast areas, if applicable large hydraulic self-contained track drill with dust control for line drilling if requested, shall be $ TBD/ day plus mobilization, if applicable

Acceptance:

This proposal **must be signed and attached as part of any and all contracts prior to commencement or scheduling of work.**

Change orders if required will be submitted in writing and require authorization prior to commencement of work.

Retainages will not be withheld unless clearly stated in the contract documents. All retainages will be paid upon completion of that specific work. No retainages will be withheld on completed extra work.

I/We agree to the terms and conditions stated above and hereby authorize ASDC to commence the work as described. Payments will be made as per the payment schedule and/or by % of completion of any work.

Payment Terms:

10% Materials Deposit on total contract

Balance of Payments to be based on % of completion of each phase of work

Terms are 30 days from date of invoice up to $50,000.00. Outstanding balances will not exceed $50,000.00 intermediate payments may be required by ASDC to continue work.
