BRAND VOICE

Precise. Intelligent. Atmospheric.

NOVA speaks with technical precision and understated confidence. Language is direct, data-driven, and atmospheric. Favor "intelligence" over "smart", "precision" over "accuracy". Never casual, never loud.

01

Color System

Built around the violet-blue-emerald triangle. NOVA Violet is the primary brand color, with Apple Blue for professional themes and Emerald as the secondary accent.

BRAND IDENTITY

05

Liquid Glass & Motion

Glass bends, shapes, and concentrates light — never obscures it. The Liquid Glass system defines how every surface interacts with the gradient mesh beneath.

GLASS PANEL ANATOMY

Specular — top-edge highlight (0.5px inset)
Lens — vertical brightness gradient overlay
Glass bg — translucent fill (rgba white 4%)
Backdrop — blur(24px) saturate brightness
Refraction — outer glow at glass edge
Hairline — 0.5px edge (rgba white 6%)
Inner depth — inset shadow for thickness
Bottom spec — underside light catch

GLASS SPECIFICATIONS

DARK GLASS
